

# ELIZABETH DMC CHABERT

## PROFILE

If my initials – EDMC – sound a bit like a mathematical formula, besides and beyond my numerous activities, I define myself as a truly contemporary artist and entrepreneur for whom the act of making takes another dimension as it turns into the making of an act.

With a CV that portrays a focused, committed and ambitious person who doesn't miss a chance to get a top grade, earn a prize or end up with the highest honors, I deployed my energy and passion in building a strong reputation in the Design field in Mauritius as an Entrepreneur specialized in Visual Merchandising & Shop Design, Pop-Up shops and Events.

I describe myself as a very enthusiastic person who loves new challenges and team work. I am proactive and highly professional, with strong organization skills enabling me to manage my teams on a day-to-day basis. I am patient and attentive to my clients needs, having a great sense of adaptability.

I describe myself as a hard worker, trustful and flexible. I have a high sense of creativity and responsibility. I am openminded and have effective communication skills. Throughout the years I have built up a strong portfolio of projects, long time partnerships and a loyal customer base in the retail and corporate spheres of Mauritius.

Today, I am seeking for new opportunities and challenges to meet my ambitions and fulfill my leadership skills.

Last but not least, I am the proud mother of two boys, enjoying a simple and flushed family life on our beautiful island.
